Christopher Alabada

Full-Stack Developer

Tokyo, Japan · 080-4337-2729 · chris@topher.la
http://chris.topher.la

A resourceful and inventive Full Stack Developer with over 12 years of experience in internet technologies ranging from PHP and Ruby on Rails applications to Linux/Unix server administration. Diligent, pragmatic, and analytical with an eagerness to learn makes for a great addition to any team.

Professional History

Teacher
Le Wagon Bootcamp
Kyoto, Japan
June 2019

- Taught intro Ruby on Rails for a week.
- Lectured and presented live code.
- Assisted and tutored students with their projects.

LAMP Developer
The Design People, Inc.
El Segundo, CA
November 2012 - December 2018

- Developed and maintained WordPress plugins and internal tools.
- Created various scripts (Python, Bash, PHP) for our web servers hosting mostly WordPress sites.
- Managed multiple servers and cloud instances which hosts 5,000+ websites at Rackspace, AWS, and our own server cabinet utilizing Nginx/Apache and Nginx/PHP-FPM web servers.

Web Developer - Product Development
The Design People, Inc.
Marina del Rey, CA
November 2008 – November 2012

- Managed custom modules for our proprietary CMS application which hosts roughly 2,500+ websites.
- Coordinated with several developers to expand, customize, and maintain client's websites.
- Developed customized modules for MLS/IDX data feeds, which used RETS, XML, and CSV.
- Created the first set of plugins for our current WordPress product line.

System Administrator
The Design People, Inc.
Marina del Rey, CA
February 2006 – August 2008

- Managed web, mail, dns, and backup servers.
- Provided tier III and tier II support, training for tier I, as well as emergency development work for our websites.
- Developed various tools in Bash (backup scripts, website creation scripts), websites in PHP (email server management, DNS management), and Salesforce.com's PHP API for our project management and production teams.
